Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 72 is rejected under 35 U.S.C. 251 as being based upon new matter added to the patent for which reissue is sought. Applicants have added as a lower limit in claim 72. 0.25% of water relative to the total weight of the composition. This limit was not present before this amendment. Applicant has not pointed out where the new (or amended) claim is supported, nor does there appear to be a written description of the claim limitation the application as filed. The examiner notes that 0.25% water is found in col. 8 of the original disclosure but there is no indication that it references this composition. Applicants gave no indication as to where this support is.

3. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,707,780 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

4. Applicants are given notice that allowance of this application will require a Supplemental Declaration for Reissue and correction of the missing zip code for Jonathoan V. Casper as well as meeting the requirements of 37 CFR 1.175 at time of allowance.
5. Claim 77 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In (b) of claim 77 is found "the photohardenable composition". There is no clear antecedent basis for this "photohardenable composition". What is found in the preceding language is "photoformable composition".
6. The examiner notes for the record that she erred in the last Office Action in paragraph 2. Applicants on August 15, 2002 made a request for continued examination under 37 CFR 1.114 and not a request for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d). This is corrected with the following: A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 15, 2002 has been entered.
7. Claims 1-77 are rejected as being based upon a defective reissue Declaration under 35 USC 252. The oath does not now set forth the error and correction as currently made. See 37 CFR 1.175 (b) (1). All claims stand or fall together under the issue of a defective reissue Declaration.

Art Unit: 1752

8. Claims 1-71 and 73-76 would be allowable with the submission of a supplemental Declaration.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
